PROJECTS

Mar-April 2019	Medical Inventory Management <i>Advisor: Zakee Ahmed, Asst. Professor, PICT</i> The project provides hands on java application to manage the Medical Inventory using DBMS. One can simply edit the data in the medical inventory by login details. Manipulation of data without logging in cannot be saved and is in read-only mode.
Feb-Mar 2019	Java Application Form <i>Regal Computers</i> The application form includes JAVA and DBMS which records the application of a student for admission. Changes can be simply made by logging in the admin details which are different from student login details. Verification of e-mail through OTP is an additional feature in application form without which one cannot proceed.
Apr-May 2020	Corona Control App Developed an Android application to keep a track of COVID-19 patient numbers. Also app user could donate funds to his interested government authority or NGO. It also provided some basic preventive measures to take for avoiding novel corona virus.
